

DDA 82-0833/2

7 APR 1982

MEMORANDUM FOR:

Assistant General Counsel

FROM:

Executive Officer to the DDA

SUBJECT:

Request for Comments on OMB Sponsored Draft
Legislation: "Confidentiality of Federal,
Statistical Records Act"

REFERENCE:

Your Memo, dtd 29 Mar 82, same Subj (OGC 82-03051)

While the Directorate of Administration has little direct involvement in classified statistical data, we do share your concerns that the enactment of the proposed Statistical Records Act could conceivably inhibit the Agency from obtaining statistical data from other government entities in support of its mission and it might force the Agency to reveal relatively sensitive data of its own. Under these circumstances we do not believe that the "founding fathers" of the Act intended that it be applicable for an intelligence organization such as the Agency. Consequently, we recommend that action be taken to gain a complete exemption from the proposed legislation for the CIA.
